

# mamu.

design:  
**Tomek Rygalik**  
2016

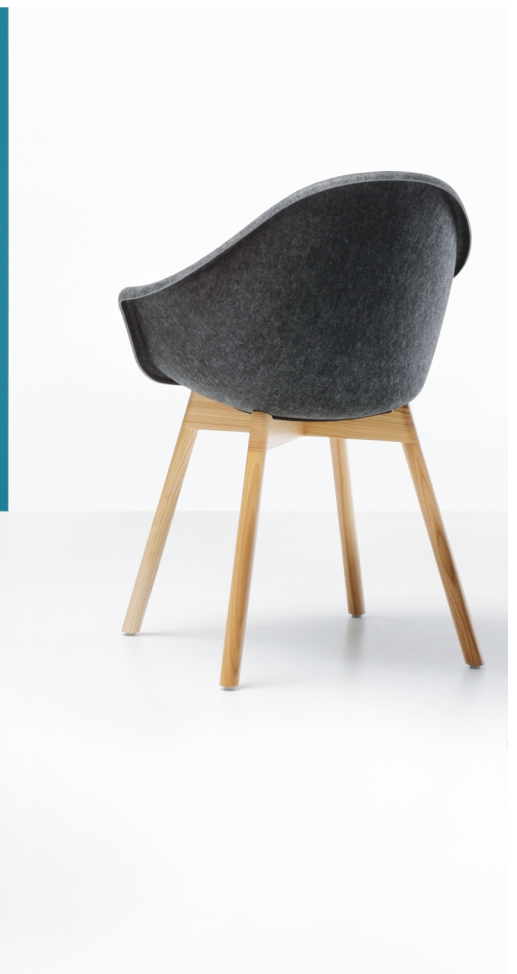

Mamu, designed by Tomek Rygalik, is a very light and compact armchair for both domestic and commercial spaces. It takes advantage of the technological breakthrough in furniture, using moulded fleece for the three-dimensional geometry of its structural ergonomic seat. Mamu is available with an upholstery pad for extra comfort, as well as with a soft upholstery cover. Its refined, sculptural shell is supported on light leg structures both in wood.
